Subject :Updates On The Annual Tech Fest Viwentiaa 2026

Dear Prof. Sreeram ,

Here's where things stand with the preparation of the tech fest "Viwentiaa 2026".

We've completed with the final selection of dance groups , drama groups , as well as the fashion performances. We're currently on progress with the fireworks show ,the drone show as the drone show requires a lot of equipment which still hasn't arrived yet.

The one thing that's holding us up is the equipment for the drone show as we are having problems communicating with the vendors. We are on track with completing the preparations of the tech fest by the end of this week.

Let me know if you have any queries regarding the tech fest ,and its preparations .I'll be happy to provide more details if needed.

Best Regards ,

The events team
